Causes a Weakness In the New

York Stock Market.

LOAN ACCOUNT SHOWS LOWEST EXPANSION OF YEAR.

SURPLUS RESERVE FALLS

Comment On the Causes For the Showing Made By Banks For the Week-Figure That the Boom In Copper Cut-Shifting of Funds-Wheat Market.

New York, May 6.-The weakness which pervaded the stock market today was acceptuated by a bank statement much cottaited by a bank statement much over initiative able to the expected. The cryptus reserve fell off over \$5,00,000 and the losts account ablowed the largest example of the expect expected by the expectation the year, increasing over 10,000. Speculation was very leverlab, with o important news influences save some Important news influences save some interface over the possibility of European influence over Transvani attainment of European attains and the four transvani attain the carrier of the four train railway officials that some desires in gross carnings for May might expected induced selling of the injects for western account and they transported in the four maximum declines were weak, the maximum declines were weak the maximum declines in the four weak the maximum declines of the four many that of Hoading preferred 21%. The unit and steel shares were also weak, leral Steel and American Steel & Wire ng off about 1½ cach. Manhattan, onlyn Transit and Metropolitan desired shout a point.

Reports of Drought In Europe Starts Wheat Firm.
Chicago, May 6.—Wheat started firm, influenced by reports of prolonged drought in Austria and Spain. Profitating caused a temporary weak spell but the market turned strong again on but the market turned strong again on liberal covering and heavy country buy-ing. Crop reperts were bad, especially from Kansas, where the total yield for the state was placed at only 25,000,000 bushels. Heavy sales for export at the seaboard had a strengthening influence. July opened he higher at This, advanced to 12c, sold off to Thic, rose to 121c, and closed at 124,675c, a gain of by 4c for the day.

bicago, May 6.—There were not enough the received today to make a market, I prices were mostly nominal. he measure supply of hogs, coupled h a good demand from all classes of each of the prices up on an average of Pall to choice, \$2.56(2.5), heavy pack—\$2.56(2.5); mixed \$2.56(2.5); pick. Comment On Bank Statement.

New York, May 5.—The New York F1nancier says this week:

Two factors—the enormous over-subscription to the share of the Amagannied Copper company and the preliminary
operations incident to the first payment
of the Philippine indeemity—contributed
toward making a surprising bank statement for the week enough May 6. The increase of \$6.04.09 in louns was far above
what had been expected, as was the expansion of \$16,000.00 in deposits. It is to
be noted that these items almost balance
each other. The changes in the actual
cast reserve were not so important, the
loss of fonds in bank being \$2.35.20. Of
the \$1.12,75 decrease in reserve, over four
millions represents added requirements
owing to the heavy rise in deposits.

The average expten of computing totals
in responsible for an evident discrepancy in
neveral respects, for th. statement includes little, if any, of the \$5,00,000 drawn
from the subtreasury, as the first payment of the Philippine fund. The banks
lost something like \$1,00.000 through the
transity on routing operations, but
transity on routing operations, but
the subtreasury is the first payment of the compensative and the reserve in
the united the statement includes little, if any of the \$5,00,000 drawn
from the subtreasury, as the first payment of the compensative and the reserve
the provious week.

The only inference is that the real cash
reserve is about as large as reported for
the previous week.

Of the changes in boans and deposits,
the National City bank is accountable for
the millions and over on each item. Just
what part the copper subscriptions played
in this matter cannot be figured, but it
is a noticeable fact that the bank total
cash varies less than three-quarters of
one million from the previous week. As
the \$5,00,000 stock of the Amalgumated
Copper company was subscribed more
than four times over, and as each subscription was accompanied by a 5 per
cent debeck, it is evident that the bank
received about \$8,00,000 from this
source, alt ers: \$1.593.8; lights as 25.55. In supply of sheep were consigned direct to the slaughtering houses, and prices are unchanged.

FOR 1899 CHAMPIONSHIPS.

National Cycling Association Adopts Some New Plans.

New York, May 6.-For the conduct of its 1899 championships, the National Cycling association board of control has adopted plans which include several

Cycling association board of control has adopted plans which include several new features.

In future the board of control will annually arrange a grand circuit, to begin on a date after July 4, and to end not later than Oct. 1, nor will it take place on a heliday or a Sunday.

In order to decide professional middle distance paced championships, all match races, before being advertised for this purpose, must be proposed to the board of control for approval. No event for the championship can be at a distance of less than fifteen miles, nor for more than fifty miles. Contestants in a championship must all use one kind of pacing, either human or motor.

Annually the board of control will award the running of the national amateur championships to the members of the National Cycling association for the greatest percentage of the gross receipts. These events shall consist of a quarter, third, half mile, two-mile and five-mile races, and the title of amateur champion shall be decided by a system of points, scoring five points to a winner, three to a second rider, two to a third and one to a fourth. Not more than five contestants shall be allowed to compete in any final championship.

At the conclusion of the grand circuit

lewed to compete in any final championship.

At the conclusion of the grand circuit a match, mile hears, best two in three, may be arranged by the board of control between the professional and amateur short-distance champions for a medal valued at \$50.

State, county and city championships for both professionals and amateurs may be awarded by the members of the board of control in their respective districts, and no such championships will receive recognition unless awarded by the board or its representatives.
